Dynamic Pricing Calculator

MINTBLOOM PRO CLEANING
Texas launch specification | Version 3 | October 15, 2026

806-581-1100 | bloomproclean@gmail.com | mintbloomcleaning.com

Purpose and launch rules

Build a clear residential estimate calculator plus dedicated quote-request flows for larger homes, commercial facilities and construction projects. Lubbock and approved surrounding Texas areas are the launch market. Other Texas cities remain request-only until local staffing, service areas and pricing are activated.

This version replaces the earlier pricing model. It uses an exact per-square-foot adjustment above a 600-square-foot included allowance, plus room charges. Do not combine it with the former size-band surcharges.

Owner requirements	Implementation
Standard cleaning starts at $145	Studio / zero bedrooms supported; no standard cleaning below the $145 pre-tax core minimum.
Oven interior: $60	Per standard oven cavity in ordinary condition; severe buildup requires review.
Five or more bedrooms	No automated total or checkout. Preserve details and open Request a Quote.
Commercial starts at $0.28/sq. ft.	Starting reference per visit only. Mandatory onsite walkthrough before a written quote; no phone-only quote.
Texas taxes and editable settings	Resolve applicable taxes using business and service locations. All business pricing settings editable in Admin.

1. Cleaning services and minimums

Service	Starting / core minimum	Customer pricing route
Standard / Basic / Regular	$145	One service with three equivalent names
Deep	$325	Residential estimate
Move-in	$395	Vacant residential estimate
Move-out	$395	Vacant residential estimate
Airbnb turnover	$210	Maintained rental estimate
Commercial	$0.28/sq. ft. starting reference	Walkthrough and written quote
Post-construction / builders	Custom scope and project price	Walkthrough and written quote

Proposed settings: Prices, inclusions, discounts and thresholds beyond the owner requirements above are recommended launch defaults. They are business proposals, not market averages or verified profit margins. All rates are per visit before tax unless noted.

Size and room pricing

2. Square footage: exact area, not flat bands

Let A be the total interior square footage being cleaned. The starting price includes the first 600 sq. ft. Size charge = max(0, A - 600) x the service rate below. Count bedroom and bathroom floor area in A; the room charges cover extra detailing and fixtures. Do not add the rate to all square footage on top of the base.

Residential component	Standard	Deep	Move*	Airbnb
Base / minimum, 1-600 sq. ft.	$145	$325	$395	$210
Each sq. ft. above 600	$0.08	$0.18	$0.20	$0.12
Each bedroom, 1 through 4	$20	$40	$50	$30
Extra full-bath equivalent	$35	$65	$75	$45
Separate office / study	$20	$35	$40	$25
Extra living / bonus room	$35	$55	$65	$40

*Move means either Move-in or Move-out. No additional fee based solely on apartment, house, townhome or studio property type.

3. Bedrooms and bathrooms

Bedrooms: allow 0, 1, 2, 3, 4 and 5+. A studio has zero separate bedrooms. Charge every separate bedroom, including the first; a fifth sleeping room triggers a quote even if called a den. Count a room used as both office and bedroom once, as a bedroom.

Bathrooms: collect full baths and half baths separately, including zero. Bath equivalents = full baths + (0.5 x half baths). Extra-bath charge = max(0, bath equivalents - 1) x the service bath rate. The base covers up to one bath equivalent; no deduction for zero or half a bath. Zero means none in the service scope, not unknown.

Example: 2 full baths and 1 half bath = 2.5 equivalents; charge 1.5 extra equivalents. Standard: $52.50; Deep: $97.50; Move: $112.50; Airbnb: $67.50. Display these as additional bathrooms, not a second selectable add-on.

Included shared spaces and limits

One kitchen, one main living area, one dining area, ordinary halls, one interior staircase and one laundry/utility area are included. Accessible closet floors are included. Open living/dining areas do not count as extra rooms. Additional rooms add the applicable charge above; their floor area remains in A.

Proposed review limits: over 3,500 sq. ft.; over 4 bath equivalents; more than one kitchen or dwelling; partial-home work; unusual layouts or additional staircases. These require a quote. Exactly 3,500 sq. ft. and exactly 4 bath equivalents remain eligible if all other conditions pass.

Size reference examples - size charge only

Area	Standard	Deep	Move	Airbnb
600 sq. ft.	$0.00	$0.00	$0.00	$0.00
1000 sq. ft.	$32.00	$72.00	$80.00	$48.00
1500 sq. ft.	$72.00	$162.00	$180.00	$108.00
2000 sq. ft.	$112.00	$252.00	$280.00	$168.00
2500 sq. ft.	$152.00	$342.00	$380.00	$228.00
3500 sq. ft.	$232.00	$522.00	$580.00	$348.00

What each cleaning includes

Standard / Basic / Regular

Routine upkeep for maintained homes with light everyday soil and clear access. Includes the selected rooms and shared spaces described on page 2.

Area	Included work
Kitchen	Accessible counters and backsplash; sink and fixtures; stovetop and appliance exteriors; microwave inside/out; spot-wipe cabinet fronts; suitable floors.
Bathrooms	Toilet bowl, seat and exterior; sink, vanity and mirror; tub/shower cleaning for ordinary soap residue; fixtures, floors and small bins.
Bedrooms and living spaces	Dust accessible furniture, shelves and sills; vacuum carpets; mop suitable hard floors; straighten cushions; make beds with existing linens.
Halls, stairs and utility area	Vacuum/mop accessible surfaces; wipe laundry-machine exteriors and utility counter; reachable cobwebs; household trash to onsite bins.
Touch points	Wipe suitable accessible handles and switches using surface-safe products.

Not included: detailed baseboard washing, full cabinet-front detailing, built-up grease/scale, appliance interiors except microwave, cabinet interiors, window glass, blind washing, dishes, laundry, organizing or moving heavy items. Eligible extras are priced separately.

Deep cleaning

Standard tasks plus hand-wiped accessible baseboards, doors/frames and sills; detailed cabinet fronts and handles; reachable kitchen degreasing; additional bathroom scrubbing for removable soap film/mineral buildup; accessible floor edges; safely reachable fan and vent exteriors; cleaning under light movable items.

Includes normal accumulated buildup. Oven, refrigerator and cabinet interiors remain optional. Severe neglect, extensive scale, permanent staining, damaged finishes, mold and grout restoration are outside ordinary Deep scope. Selecting Deep does not itself trigger a heavy-condition surcharge.

Move-in and Move-out

Deep checklist for an empty home, plus **one standard oven cavity, one empty refrigerator/freezer unit, and empty kitchen/bath cabinet and drawer interiors**. Includes accessible closet shelves and floors and a room-by-room finish check. No duplicate add-on fees for these included items.

Property must be vacant, cabinets empty and water/electricity available. Partly packed homes require review. Excludes hauling belongings/debris, repairs, paint/adhesive removal, construction dust, carpet extraction and deposit-return guarantees. A renovated property routes to post-construction review.

Airbnb turnover

Standard cleaning plus strip/remake up to 2 beds with host-supplied clean linens; arrange towels and agreed onsite supplies; ordinary fridge spill wipe; one dishwasher load; ordinary trash; agreed reset, completion photos and reporting visible damage. No full fridge/oven deep clean or laundry included.

Additional bed changes and laundry are separate. Collect actual beds, linen availability and checkout/check-in times. More than 6 beds, party mess, long-stay buildup or an infeasible turnaround requires review. Initial deep cleans use the Deep package; no automatic recurring discount on turnover.

Commercial and builders

Commercial cleaning: from $0.28 per sq. ft.

Website wording: Commercial cleaning starts at $0.28 per square foot per visit. An onsite walkthrough is required to confirm the cleanable area, service scope, frequency and final written price. Request a walkthrough to get started.

Selecting Commercial immediately changes the primary button to **Request a Walkthrough**. Do not calculate a customer total, take payment or issue a binding phone quote. Residential minimums, room charges and discounts do not apply.

Facility / scope	Assess during walkthrough
Offices, retail and common areas	Workstations, touch points, entrances, accessible surfaces, floors and onsite waste disposal.
Restrooms and breakrooms	Fixture counts, buildup, sinks, counters, appliances and restocking responsibilities.
Warehouses and larger facilities	Cleanable office/common areas versus industrial areas; equipment access, floor type and traffic.
Property managers / multi-unit sites	Units versus shared areas, turnover condition, occupied access, keys and inspection checklist.
Specialty settings	Medical, food-service or industrial requirements need separate scope/capability assessment; do not promise specialty sanitation automatically.

Internal reference only: 4,000 cleanable sq. ft. x $0.28 = $1,120 before tax per visit. This is not a quote. Verify labor and scope before issuing a bid. Specify frequency and visits per billing period separately; never confuse a per-visit amount with a monthly contract amount.

Post-construction / renovation / builders

Dedicated service category for residential and commercial construction, remodels and newly built properties. **All require an onsite walkthrough and written quote.** Do not apply ordinary Deep or Move rates, and do not automatically apply the commercial $0.28 reference to construction cleanup.

Project stage	Scope to price individually
Rough clean	Agreed light loose debris and preliminary dust removal after trades; hauling/dumpster responsibilities specified.
Final detail clean	Fine-dust removal from accessible surfaces, cabinet interiors, fixtures, doors, trim and floors; glass/track work only as specified.
Touch-up / handover	Additional visit after trades or inspections for fresh dust, footprints and agreed final presentation.

Quote each stage, visit count, area, labor, equipment, glass/adhesive work, disposal and deadline. Paint, grout, cement or adhesive removal requires surface-specific assessment. Exclude hazardous dust/materials, mold, biohazards, major hauling and specialist remediation unless separately assessed and accepted.

Walkthrough and quote request fields

Contact name, company (if applicable), email/phone, full service address, property type, approximate cleanable area, rooms/restroom fixtures, floor types, project stage/condition, requested tasks, frequency, access/security, utilities, parking, deadline, photos/plans and preferred walkthrough times. Record who supplies consumables and disposal facilities.

For 5+ bedroom homes, collect the exact room count and photos; staff may assess remotely or arrange a walkthrough before sending a personalized quote. Commercial and construction jobs always require the onsite walkthrough. Submission confirms receipt only, not a booking.

Add-ons and extra charges

4. Add-on services

Extra	Launch price and rule
Oven interior	$60 per standard cavity; double oven = 2. Excessive grease or specialty ovens require a quote. One included in Move.
Refrigerator / freezer interior	$45 per empty standard combined unit. One included in Move. Food handling/defrosting requires review.
Empty cabinet interiors	$60 up to 20 individual doors/drawers, then $3 each additional. Count each once. Included in Move.
Interior window glass	$8 per reachable pane, inside face only; $40 minimum when selected. Exterior, oversize or high-access glass requires quote.
Window tracks / blinds	$5 per standard opening for tracks; $8 per standard blind for hand-wiping. Fragile/oversize units need review.
Hand-wiped baseboards	$40 per started 1,000 sq. ft. of the priced home; Standard/Airbnb only. Included in Deep/Move.
Additional bathrooms	Calculated from bathroom counts using page 2 rates. Never add a second bathroom fee.
Linen changes	$12 per bed for Standard/Deep; clean linens onsite. Airbnb includes 2; each additional bed is $20.
Onsite laundry	$30 per normal machine load, wash/dry/fold. Maximum 2 automated loads, only if achievable during visit; otherwise quote.
Handwashed / excess dishes	$25 per selected 15-minute block of one cleaner; maximum 2 blocks. Larger volume requires review.
Garage sweep	$40 per empty vehicle bay. No hauling, oil removal, degreasing or stored-item cleaning.

Show included items as Included with no selectable duplicate fee. Additional oven/fridge units beyond the one included in Move remain chargeable. Do not promise completion of time-limited dishes/laundry beyond the agreed allowance.

6. Condition, pets, travel and special requirements

Heavy buildup: request photos and staff review. Proposed moderate excess-work adjustment is 25% of the undiscounted core, only after approval. Severe grease/scale, clutter, hoarding, pest waste or biohazards stop automatic pricing. No fee merely for selecting Deep.

Pet hair: $35 for up to 30 extra minutes of one cleaner; only when additional hair-removal work is needed. No fee just for owning pets. Greater accumulation requires review. Do not charge pet hair and heavy-condition fees for the same work.

Travel: proposed one-way road distance from assigned local hub: 0-20 miles $0; over 20-35 miles $30; over 35-50 miles $60; over 50 miles request quote. Parking/tolls at disclosed, approved actual cost. Unconfigured hub/distance requires review.

Rush: optional $50 only after staff confirms availability. High fixtures/windows, special equipment, unusual access or additional stairs require assessment. Tall ceilings alone do not add a fee if high work is not requested. Routine supplies and equipment are included; default booking, processing and mandatory gratuity fees are $0.

Discounts, taxes and calculation

5. Recurring discounts / 7. Minimum booking

Standard only, from the second completed recurring visit: **weekly 10%; biweekly 7%; monthly 5%**. Monthly means once per calendar month, not every 4 weeks. First visit is full price and may require Deep scope. No stacking; no automatic Deep, Move, Airbnb, commercial or construction discount.

Discount applies to the core cleaning only. After discount, enforce the core minimum: Standard $145; Deep $325; Move $395; Airbnb $210. Then add extras and approved fees. Show any minimum adjustment clearly; a $145 studio receives no effective discount below $145.

8. Texas sales tax and fees

Ordinary cleaning is taxable [1]. State tax is **6.25%**; local tax can add up to **2%**, for a maximum **8.25%** [2]. Lubbock city is listed at 8.25% combined [3]. Prices in this document exclude tax.

Do not hard-code 8.25% across Texas or calculate from ZIP alone. Resolve local sourcing using the actual business/order-receiving location and service address under Texas rules, including applicable local use tax. Use a Texas-capable tax engine or a tax-adviser/Comptroller-verified mapping [4,5]. An address lookup alone does not establish sourcing. Missing/unresolved tax configuration must hold final billing for review.

Calculate tax on discounted taxable cleaning plus taxable extras and related fees. Store taxability per line; service-related travel/rush/condition charges default taxable pending verified treatment. Do not let customers self-exempt by selecting Business. Review exemption/resale documentation before applying it [1].

Builders: qualifying residential new-construction services purchased by a homebuilder may be nontaxable with the required written certification. Collect documentation and route to review; do not automatically exempt all construction jobs or tax every qualifying builder job [6]. No special government service fee is added.

Exact order of operations

1. Validate inputs and run all quote-only gates before producing a price.
2. Core C = base + max(0, A - 600) x area rate + bedrooms x bedroom rate + max(0, full baths + 0.5 x half baths - 1) x bath rate + office charges + extra-living-room charges.
3. Discount D = round(C x eligible recurring percentage, 2).
4. Net core N = max(C - D, service minimum). Show minimum adjustment = N - (C - D).
5. Add approved heavy adjustment H = round(C x 0.25, 2), if applicable; add eligible extras E and approved fees F.
6. Pre-tax subtotal S = N + H + E + F.
7. Tax T = round(taxable portion of S x verified combined rate, 2).
8. Total = S + T.

Use decimal arithmetic and round half-up to cents. Round each priced line and discount to cents; calculate tax once on the taxable subtotal for the single-address visit. Never round silently to whole dollars. Commercial/construction written quotes use their own scope and tax review.

Texas markets and pricing control

Launch with this rate card for Lubbock and explicitly approved surrounding areas. Other Texas cities default to quote-request only. Admin can activate a separate complete rate card per market; use exactly one card per estimate, with no automatic regional multiplier. Service-area approval, staffing and tax configuration are separate from a price estimate.

Sample prices and verification

9. Residential examples: studio through four bedrooms

One-time service; no extras, offices, additional living rooms or fees. Values are before tax. Move covers either Move-in or Move-out. These examples come from the exact formula, not separate package prices.

Home	Standard	Deep	Move	Airbnb
Studio / 0 baths 500 sq. ft.	$145.00	$325.00	$395.00	$210.00
Studio / 1 bath 500 sq. ft.	$145.00	$325.00	$395.00	$210.00
1 bed / 1 bath 800 sq. ft.	$181.00	$401.00	$485.00	$264.00
1 bed / 2 baths 800 sq. ft.	$216.00	$466.00	$560.00	$309.00
2 beds / 1 bath 1200 sq. ft.	$233.00	$513.00	$615.00	$342.00
2 beds / 2 baths 1200 sq. ft.	$268.00	$578.00	$690.00	$387.00
3 beds / 2 baths 1600 sq. ft.	$320.00	$690.00	$820.00	$465.00
4 beds / 3 baths 2500 sq. ft.	$447.00	$957.00	$1,125.00	$648.00

Worked totals using an 8.25% test tax rate

Case / calculation	Subtotal	Tax	Total
Studio Standard, 500 sq. ft., 1 bath 145 base	$145.00	$11.96	$156.96
2-bed / 2-bath Standard, 1,200 sq. ft. 145 + 48 size + 40 bedrooms + 35 bath	$268.00	$22.11	$290.11
Same home + oven and fridge 268 core + 60 oven + 45 fridge	$373.00	$30.77	$403.77
Same home, eligible weekly Standard 268 - 26.80 discount	$241.20	$19.90	$261.10
1-bed / 1.5-bath Deep, 800 sq. ft. 325 + 36 size + 40 bedroom + 32.50 bath	$433.50	$35.76	$469.26
2-bed / 2-bath Airbnb, 1,200 sq. ft.; 3 beds, 1 laundry load 387 core + 20 third bed + 30 laundry	$437.00	$36.05	$473.05

Developer acceptance checks

600 sq. ft. studio Standard = $145; 601 = $145.08. Zero bedrooms and zero baths are valid; zero area is invalid. A 1,000-sq.-ft. 1-bed/1-bath Standard = $197; the same area with 3 beds/2 baths = $272. Size never replaces room charges.

A weekly $145 studio remains $145 before tax; show $14.50 discount and $14.50 minimum adjustment. Deep/Move baseboards are Included. Move with one oven and one fridge adds $0; a second oven adds $60. For Standard baseboards: 1,000 sq. ft. adds $40; 1,001 adds $80.

Website flow and handoff

5+ bedrooms, Commercial and Post-construction: no numeric estimate, checkout or payment. Over 3,500 sq. ft. or over 4 bath equivalents: quote required. Changing an input to a quote-only condition must clear any earlier total. Invalid, unknown or unresolved inputs must never become $0.

Customer experience

Step 1: full service address and property/service type; check service availability.
Step 2: exact area, bedrooms (0-4 or 5+), full/half baths, offices, additional living rooms, kitchens, stairs and access.
Step 3: condition, last professional clean, pets/hair, ceiling height and whether high work is requested; service-specific details.
Step 4: frequency, relevant add-ons and preferred date.
Step 5: estimate with concise inclusions, expandable itemized breakdown, sales tax and estimated total; or a quote/walkthrough form with prior answers preserved.

Required review gates also include severe or unknown condition, requested high-level work, multiple kitchens/dwellings, specialty surfaces/tasks, partial-home requests, more than 6 Airbnb beds, unworkable laundry/turnover timing, and unavailable markets. Unknown area routes to quote rather than estimating. No automatic service availability promise. Require positive whole-number square footage and nonnegative integer room/quantity counts; collect half baths separately. Unknown is distinct from zero.

Customer-facing wording

Estimate: Your estimate is based on the property details and services selected. We confirm size, condition, access and availability before confirming your booking. Any change in scope or price requires your approval before work begins.

Five or more bedrooms: Larger homes need a personalized quote. Submit your property details and our team will contact you to confirm the scope and send your quote.

Condition differences: If the actual property condition, size, access or requested work differs materially from the information provided, Mintbloom may pause, revise the quote, reschedule or cancel service. We will explain the change and obtain approval before additional work or charges. Unsafe or out-of-scope work may be declined. Unperformed prepaid work is refunded, less only charges previously agreed and legally permitted. Company-initiated cancellation does not automatically incur a customer late-cancellation fee.

High surfaces: Cleaning covers safely reachable surfaces using approved equipment. High fans, beams, windows and elevated ledges require separate assessment.

Admin Dashboard and operational checks

Make service prices, area allowances/rates, room charges, minimums, inclusions, quantities, discounts, fees, limits, quote gates, service areas/hubs and tax mappings editable. Store pricing version, inputs, scope, itemization, tax jurisdiction/rate and acceptance with each booking. Updates must not rewrite accepted prices. Recalculate and validate on the server; prevent duplicate submissions.

Keep the 24-hour customer cancellation window and 20% late-cancellation fee as a separate booking policy. Confirm its fee basis against the signed agreement and tax treatment before automation. Do not add it to normal estimates.

Before enabling booking confirmation, compare prices with actual paid labor, travel, supplies and overhead: required pre-tax price = estimated total cost / (1 - target margin). Keep first-time and specialty estimates subject to review. Track actual job hours and adjust settings; tax is not revenue.
